SUMMARY

Detail-oriented Frontend Developer with over 3 years of experience building responsive, user-focused web applications using modern frameworks like React and Angular. Skilled in transforming Figma designs into pixel-perfect interfaces, optimizing responsiveness, and integrating APIs for scalable solutions. Adept at collaborating with cross-functional teams to deliver smooth, efficient, and visually appealing user experiences.

EXPERIENCE

Frontend Developer   01/2025 – Present | Cairo
Smart Hub
- Converted Figma designs into responsive web applications with pixel-perfect accuracy.
- Integrated APIs for secure authentication and database management, improving scalability.
- Collaborated with designers and backend developers to enhance UI performance and animations.

Frontend Developer   09/2025 – Present
Samox AI
- Developed interactive dashboards for smart home devices with real-time data visualization.
- Integrated intelligent agent services enabling voice control for home devices.
- Enhanced UI responsiveness and optimized animations for smooth user interaction.

Frontend Developer   06/2024 – 09/2024 | Cairo
Code and Cores
- Built responsive React applications from Figma designs with complete design accuracy.
- Developed WhatsApp Business solutions using Node.js to automate messaging workflows.
- Improved API integration reliability and fixed UI responsiveness issues.

Full Stack Developer   09/2024 – 12/2024 | Cairo
Yaro Travel
- Implemented RESTful APIs, authentication, and role-based access control.
- Built a scalable admin dashboard to manage bookings and travel packages.
- Enhanced the UI for better responsiveness and smoother animations.

Full Stack Developer   12/2024 – 03/2025
World Tech
- Developed backend services using Node.js for authentication and data management.
- Designed responsive landing pages and UI for HR management systems.
- Improved the overall user experience through layout consistency and UI fixes.

Freelance Web Developer   01/2021 – Present
- Built and optimized dynamic websites for 5+ clients using HTML, CSS, JavaScript, and React.
- Enhanced website responsiveness and animations across various devices.

Internship, Frontend Development   04/2024 – 10/2024
ITC Company
- Gained practical experience with frontend tools and frameworks.
- Assisted in improving internal web app UI and user interactions.

TECHNICAL SKILLS

Frontend	Frameworks/Libraries	Tools	Soft Skills
HTML	ReactJS	Git	Attention to Detail
CSS	Angular	GitHub	Self-Motivation
SASS	Redux Toolkit	Figma	Adaptability
JavaScript	NextJS	Firebase (familiar)	Continuous Learning
jQuery	TypeScript		
Bootstrap	Axios		
Tailwind CSS			
ShadCN			

KEY PROJECTS

ManchesterCity Application (React)
Fan Engagement Platform
Built a React-based application for Manchester City fans, utilizing Context API for efficient state management.
Implemented React-Router for smooth navigation, enhancing user experience across pages. **Repo** ⊘ **| Live** ⊘

StoreApp (Next.js)
E-commerce Platform
A modern, full-featured e-commerce application built with Next.js, featuring user authentication, product
management, shopping cart functionality, and Stripe payment integration. **Repo** ⊘ **| Live** ⊘

House Marketplace (React)
Real Estate Platform
Real estate web app built with React and Firebase, allowing users to list, search, and manage properties. It includes
user authentication, real-time listings, and location mapping with Leaflet. Property images are displayed using
Swiper.js, and notifications are handled via React Toastify. **Repo** ⊘ **| Live** ⊘

Medifit (React)
Healthcare E-commerce Platform
A modern, responsive healthcare e-commerce platform built with React and Vite, designed to provide users with
easy access to medical supplies, health products, and wellness essentials. **Repo** ⊘ **| Live** ⊘

CarRental (Mern)
Rental Management System
A modern, full-stack car rental management system built with Next.js, featuring a comprehensive dashboard for
administrators and a user-friendly interface for customers. This application provides complete rental management
capabilities with real-time updates, profile management, and responsive design.
Frontend: **Repo** ⊘ | Backend: **Repo** ⊘

FreshCart (Angular)
Ecommerce Platform
A modern e-commerce web app built with Angular and TypeScript, featuring a clean, responsive UI for smooth
shopping experiences.Developed modular components for product browsing, cart management, and checkout
flows.Implemented scalable architecture and reusable services to ensure maintainability and performance. **Repo** ⊘
| Live ⊘

EDUCATION

Bachelor of Science
Tanta University, Faculty of Science
09/2017 – 08/2021

Fullstack Development Diploma
Route Academy (Online)
11/2023 – 04/2024
